STEAM support

Science · Technology · Engineering · Art · Maths

The purpose of STEAM education-Science, Technology, Engineering,Art and Mathematics-is to provide students with the necessary skills,knowledge and experience in order to cope with the technological challenges of the future. Modern pedagogical theories suggest that the study of engineering should be incor orated in all other subjects, starting from elementary level STEAM series, offers a practical solution for facing all these educational issues,aiding the teacher to engage students in STEAM disciplines in a fun. exciting and interest- ing way!

Our skilled team, exceeding 60 professionals and augmented by more than 20 international designers, collaborates to turn concepts into tangible delights, supported by licensing from renowned automotive brands such as Mercedes-Benz, Mazda, Levc, Claas, Humvee, Arctic Cat, Suzuki, Citroen, Jeep, Land Rover, Volvo, Freightliner, Ford, Mack, and JCB.

Our extensive global reach spans over 60 countries and populates more than 30,000 stores, fortified by robust partnerships with market leaders such as Sam's Club, Walmart, Costco, Carrefour, Falabella, Lidl, Aldi, Top Toy, and more. Double E's unwavering commitment to quality and safety has earned us a formidable brand appeal and a trusted reputation in the global toy industry.

A large, detailed LEGO Technic model of a town square. The central building is a two-story structure with a brown roof and white walls. To its left is a car wash with a black roof and a sign that says "CAR WASH". To the right is a bus stop with a sign that says "BUS STOP". In the foreground, there is a white van and a green car. The background features a blue sky with white clouds and a range of blue mountains. The entire model is set on a blue baseplate with white lines representing a road. The model is surrounded by a blue border.
